

Keyboard shortcuts

Last Modified on 05/11/2019 1:29 pm CET

Here's a list of shortcut key combinations in the Design Tool.

| Key combination | Description |
|-----------------|--|
| CTRL+N | New layout |
| CTRL+O | Open (File) |
| CTRL+S | Save (or Save as) |
| CTRL+P | Print |
| DEL | Delete the selected components |
| Ctrl+C | Copy the selected components |
| Ctrl+V | Paste copies of the previous copied components |
| Ctrl+F | Fill view on all components |
| Ctrl+H | Change build direction |
| Ctrl+Shift+R | Start positioning tool |
| Ctrl+Shift+Q | Quick Adjust selected component |
| Ctrl+Shift+C | Configure selected component |
| Ctrl+Shift+A | Select whole conveyor for selected component |
| Ctrl+Shift+L | Start Segments for selected conveyor |
| Ctrl+Shift+H | Toggle build handle visibility |
| Ctrl+Shift+G | Toggle lite geometry on components |
| Ctrl+Shift+D | Toggle build direction visibility |

Keyboard shortcuts can also be seen when hovering the mouse over a menu item. If the menu item

has a keyboard shortcut, then it will be shown:
